

I respectfully urge you to reject Nab's petition 04-160 as XM radio is a subscription service and I do not feel that you have the right to limit its broadcasting in any way. I pay for XM because you have so many limitations on local broadcasting as it is. I also appreciate the traffic, weather and variety I cannot find elsewhere. The traffic stations on XM are on 24 hours a day, I do not think you could find a local station that committed to traffic information or weather for that matter.

All in all, I respectfully urge you to leave XM and Sirius radio ALONE.
